

Introduction Outline

Connor H. McCurley
Electrical and Computer Engineering
University of Florida, Gainesville
FL 32611, USA*

August, 2019

Introduction Outline Questions

1. What will I be studying

- Multi-sensor fusion
- Multiple instance learning for manifold construction
- Key aims
- The research questions I'll address
- The variables of interest (factors being studied)
- The methods investigated
- Time period

2. Why is the topic important to investigate

- Can

3. What did we know about the topic before this study?

- Manifold Learning
- Multiple Instance Learning
- Fusion
- Outlier detection

4. How will this study advance new knowledge or new ways of understanding?

- Merging
